JK TYRE & INDUSTRIES LTD

Ref: RPSCOE/HR

20th March 2026

CERTIFICATE OF COMPLETION

This is to certify that Mr. Vishal Kumar A has successfully completed his internship as a Data Scientist at Raghupati Singhania Centre of Excellence (RPSCOE), JK Tyre & Industries Ltd., from September 15, 2025 to March 20, 2026.

During his work, he has made significant technical contributions in the areas of data engineering and machine learning, including:

Development of a Data Extraction Tool
Designed and implemented an automated system for extracting structured data from PDF documents and converting it into Excel format, enabling efficient data processing and creating a reliable data pipeline for machine learning applications.

Machine Learning Model for Chemical to Physical Component Conversion
Built a machine learning model capable of converting chemical data into corresponding physical components, supporting analytical and predictive workflows.

Time Series Data Bank Creation & Cleaning Model
Developed a comprehensive dataset comprising over 30,000 time series data records, along with a machine learning model for automated data cleaning, preprocessing, and quality enhancement.

Deployment & Security Implementation
Successfully deployed the data extraction tool in a Linux-based environment, ensuring secure access through SSL certification and implementing necessary security measures for safe data handling.

His work demonstrates strong technical expertise, innovation, and a deep understanding of machine learning systems and data engineering practices.

We appreciate his dedication and contributions, and we wish him success in his future endeavours.

With best regards,

Dr. Arun Jaura
Chief Technology Officer
